Product Picture	Product Name	Product Code	Description
	WS2812B waterproof led strip	Karlie0001	This is full color LED strip, suitable for various scenarios, portable installation Free combination, enhancing the atmosphere and aesthetics of the scene There are many waterproof tpyes you can choose, IP30,IP60.IP67
	light string	Karlie0002	Used for outdoor decorate, there are many colors, the full coclor is the most popular
	LED module light	Karlie0003	Used for Sign Board Backlighting, Light box Sign box Backlighting and so on Ultra brightness Energy efficient, major reduction in power costs
	led display controller	Karlie0004	This controller is applicable to single-color lamps, such as 5050 and 3528 LED strip lights and lamp strips. This controller features tool-free installation, enabling direct connection to power and light strips without any welding necessary
	5000W Spot Welding Handheld Mac	Karlie0005	Using imported welding needles from the United States, it can be disassembled and replaced, and the welding points are beautiful and firm Comes with a high-rate lithium battery, which can be used after opening High-definition digital tube display, monitor the remaining battery power
	3D VR Glasses	Karlie0006	42mm lens Better and wider field of view Better Watching experience
	Screw Driver Kit	Karlie0007	24 precision batch heads Comfortable grip handle Meet most of your daily needs
	Third hand holder	Karlie0008	6 flexible arms each with a large swiveling alligator clip. 6+1 pockets in beautifully base to hold loose components. 6 Silicon clip tips for the ultimate heat resistance. 6 Removable feet for a stable standalone operation. Integrates perfectly with Panavise vises and base mounts.

	TUF-2000M Ultrasonic Flowmeter	Karlie0009	1.High accuracy Linearity: better than 0.59, Repeatability: better than 0.2%, Accuracy: better than 1% 2.Wide measuring range Several types transducer for selection, pipe size from D15mm to DN6000mm 3.Far transmission distance Connecting module and secondary meter through RS-485 interface, transmission distance up to 1000m
	LED Motion Sensor Light Switch	Karlie0010	When the person enters the sensing range, it can be automatically turned on. When the person leaves, the time can be automatically turned off.
	5.5w Laser	Karlie0011	This laser head adopts the intelligent feedback control circuit & external constant current drive mode, bringing the excellent laser beam quality.
	Button with led	Karlie0012	These buttons are made of metal and are sturdy and durable, there are many sizes, like12mm 16mm19mm 22mm and so on also can choose Self-resetting or Self-locking
	60mm Dome Pushbutton	Karlie0013	60mm Dome d Push Buttons used for Arcade Coin Machine Operated Games
	C150 Battery Balance Charger	Karlie0014	C150 is a new design multi-functional high power balance charger by HTRC,economic price,high quality.Utilizing 2x16 LED display,built-in cooling fan,DC 11-18V or AC 100-240V dual power.Max charger power 150w,Max charge current 10A.Designed for charging LiPo LiFe Lilon LiHV NiCd NiMh Pb Smart Batteries.
	TS101 Soldering Iron	Karlie0015	9 Innovative Upgrades DC+PD Power Input 50-400°C Temp Control DC9-24V Wide Voltage Boost Mode Dynamic Detection Wider Screen Upgrade Setting Menu MultipurposeAnti-Slip Cap Compatible withTS100 Tips
