 <p>21 in 1 mobile phone tools kit</p>	21 in 1 Mobile Tools Kit	Xylia0046	<p>This disassembly tool is a multi-functional combination set consisting of 21 accessories.</p> <p>It is suitable for various screw head types such as plum blossom type, hexagonal type and star type, meeting the requirements of precise disassembly.</p> <p>It is very suitable for the maintenance of electronic devices and the</p>
	Camera Lens Cleaner Resin Synthetic Stick	Xylia0047	<p>The mobile phone repair lens dust removal rod is a precise cleaning tool. It is made of synthetic resin or elastomer materials.</p> <p>It has high viscosity and no residue, and can effectively adsorb fine dust and debris on the surface of lenses, sensors, etc.</p>
	Back Glass Breaking Pen	Xylia0048	<p>The explosive pen is a precise disassembly tool.</p> <p>It is specifically designed for safely removing the glass back covers or camera lenses of smartphones such as iPhones and Samsung phones.</p>
	Dust suction ball	Xylia0049	<p>Basic Cleaning: Clean the lens, UV mirror, data interface, no anti-sensor, etc.</p> <p>Ergonomically designed for easy grip and use to guide the strong airflow to blow away dust and other impurities from your equipment.</p>
	Phone Motherboard Repair Working Pad	Xylia0050	<p>There are still many sizes of work pads here.</p> <p>The workbench is made of silicone and is a kind of anti-slip and high-temperature resistant cushion.</p> <p>It can prevent static damage, and its surface can fix small parts, usually having a magnetic attraction function.</p>

	Plastic Disassemble Crowbar	Xylia0051	DIY electronic repair, an essential tool for repairing a broken cell phone. Double-head design, flat head and head combination, a spudger dual-purpose.
	Triangular Opening Pry Tool	Xylia0052	<p>Replace fingernails and remove mobile phone cases. Disassembly of digital products</p> <p>The screen opener pry tool can open most cell phone screens without damage.</p> <p>It is used to repair replace your wrong, cracked, damaged faulty digitizer assembly.</p>
	Heat dissipation copper sheet	Xylia0053	<p>Mobile phone and computer repair is specifically designed for heat dissipation.</p> <p>Made of pure purple copper, it has excellent heat dissipation effect and a clean and smooth surface treatment.</p> <p>It is suitable for cooling small chips on various motherboards with limited installation space.</p>
	Metal Screwdriver	Xylia0054	<p>There are various types of screwdrivers here.</p> <p>Applicable to the repair of all kinds of products.</p> <p>Anti-slip handle for better control.</p> <p>Compact and lightweight, easy to carry.</p>
	Anti-static Dust-free cloth	Xylia0055	<p>The lint-free cloth is made of polyester fiber or microfiber.</p> <p>It features low dust generation, high water absorption and anti-static properties.</p> <p>It is suitable for precision electronic repair and dust-free environment cleaning.</p>

	MS1 Intelligent Preheating Separator	Xylia0056	<p>It is a constant temperature heating device suitable for electronic repair and small-batch soldering.</p> <p>It features precise temperature control (typically adjustable from 100°C to 400°C) and a uniform heating panel.</p> <p>It is suitable for operations such as PCB preheating and desoldering surface mount components.</p>
	Flexible Arms Magnifier	Xylia0057	<p>This is a tool that can adjust the fixture in multiple directions and has an optical magnification function.</p> <p>It is usually equipped with a universal joint structure or a rotatable bracket, supporting 360° Angle adjustment.</p> <p>It is convenient for precise observation and operation of tiny objects.</p>
	LCD Screen Separator Opening Pliers	Xylia0058	<p>It adopts an ergonomic anti-slip handle and an adjustable suction cup structure, which can safely separate the LCD screen of a mobile phone or tablet computer, avoiding damage during the disassembly process.</p>
 <p>Double-layer component box (Class C)</p>	Transparent Components Storage Box	Xylia0059	<p>Multi functional storage, use this storage box to organize your mobile repair tools, making it an ideal choice for LCD, motherboard, and IC parts.</p>
 <p>CHARDELAB / ETCOL-8877-8 KM003C</p>	KM003C USB-C Fast Charging Tester	Xylia0060	<p>It is a professional-grade portable fast charging tester.</p> <p>It features a CNC aluminum casing and a 1.54-inch IPS color screen, supporting mainstream fast charging protocols such as PD3.1, QC4+/5, and UFCS.</p> <p>Detection, development and debugging of fast charging protocols applicable to mobile phones, laptops and other devices.</p>
