 <p><b>SF-A9 40W</b></p> <p>20W 40W 20w/40w One-Click Power Shift</p>	SCULPFUN SF-A9 40W Laser Engraver And Cutting Machine	Lillie0076	The SCULPFUN SF-A9 is equipped with a 40W diode laser, which is powerful enough to cut wood and dark acrylic up to 30mm thick and stainless steel up to 0.15mm.
 <p><b>S9 pro</b></p> <p>• 10W Laser • 0.06mm High-precision</p>	SCULPFUN S9 Pro 10W Laser Engraving Machine	Lillie0077	With super cutting penetration and precision, it can cut up to 15mm thick wood, 10mm acrylic, and directly engrave ceramics and 304 stainless steel.
	SCULPFUN S9 90W Effect Laser Engraving Machine	Lillie0078	S9 uses the latest 5.5W laser beam shaping technology diode laser, it has an ultra-fine 0.06mm sharp laser focus.
 <p>NEW   SCULPFUN S30 Series 5W/10W/20W</p>	SCULPFUN S30 PRO MAX /S30 PRO/S30 20W Laser Engraver	Lillie0079	The S30 series is equipped with an air-assist 32-bit motherboard and a controller-type air pump, which allows intelligent toggling of air-assist during engraving through the M8 command in LightBurn software
 <p>6mm-150mm Engraving diameter</p>	SCULPFUN Laser Rotary Roller	Lillie0080	Easy and fast sliding adjustment
 <p>Dual Wheel Bracket Easily engrave even long cylindrical objects</p>	SCULPFUN RA Pro Max 4 in 1 Rotary Chuck	Lillie0081	The SCULPFUN RA Pro is equipped with 3 sets of jaw attachments: stepped jaws, L-shaped jaws and hexagonal jaws.
 <p><b>10W</b></p>	SCULPFUN S10 Laser Engraver Machine	Lillie0082	The S10 laser output power is increased to 10W, which is twice that of the S9.
 <p><b>IR-2W</b> For S6 S9 S10 S30 Series/ S30 Ultra Series/ SF-A9</p>	SCULPFUN 1064nm 2W Infrared Laser Module	Lillie0083	High Power Output:Boasting a light output power of >2W, the SCULPFUN laser module delivers robust performance for intricate designs.
 <p>Product Weight <b>9kg</b> (includes mounting board)</p>	SCULPFUN H4 Honeycomb Laser Bed	Lillie0084	SCULPFUN laser honeycomb panel is a must-have component designed specially for use with laser engraver and cutter machines.

	SCULPFUN Automatic Air Assist Kit	Lillie0085	it has an air assist interface and is compatible with LightBurn, and the automatic air pump is controlled on and off by the M8 air assist switch of the LightBurn software.
	SCULPFUN Expansion Kit 935x905mm	Lillie0086	SCULPFUN Expansion Kit (935×905mm) for S30/S30 Pro/S30 Pro Max – Directly Installed V-Slot Shaft XY-Axis Extension Kit
	Sculpfun S10 Engraving Area Expansion Kit	Lillie0087	It can be directly assembled on engraving machine without any other additional processing
	SCULPFUN CAM500 Lightburn Camera Precise Positioning	Lillie0088	This industrial assist camera is specially designed for laser engraving machines, which fully matches with the lightburn software.
	SCULPFUN S70 Max 70W Laser Engraver Cutting Machine	Lillie0089	The Sculpfun S70 Max is perfect for accommodating super large materials.
	Sculpfun S9 Laser Engraver Module	Lillie0090	The SCULPFUN laser module has a clever and widely compatible structural connection device, which can be well adapted to different laser engraving machines, laser cutting machines, 3D printers, CNC milling machines, etc.
